# About Art Basel

Art Basel was started in 1970 in Basel Switzerland by art gallerists Ernst Beyeler, Trudi Buckner, and Balz Hilt. They took their passion for art and their city and created a show that was an instant success, with 90 galleries and 30 publishers from 10 different countries, the event attracted 16,300 visitors.

Not only does Art Basel showcase works by world-renowned artists, it also serves to highlight new and innovative artists who are at the vanguard of the visual arts. Since its inception Art Basel has earned a reputation of showing work of the highest caliber attracting leading galleries and collectors from around the world.

The primary goal of Art Basel has always been to connect the international art community. Today it is ranked as the premier show of its kind. By presenting some of the best in 20th and 21st century art in a wide range of styles and mediums, the show offers visitors a view of the most vital art that the world's best galleries has to offer.

Today Art Basel has shows on three continents in three major cities, Basel, Miami Beach and new for this year Hong Kong. Attracting around 200,000 visitors and displaying work from 500 of the world's best galleries. Each city helps to lend flavor to the shows. Cultural events and parallel exhibitions during the show help to create an exciting environment unique to each venue.

# The Miami Show

In 2002 Art Basel expanded to the United States with a show in Miami Beach Florida. The show reflects the cultural diversity of North America and Latin America. Quickly becoming the premier show in the Americas the Miami show has become one of the favorite winter destinations of the art world.

The event draws over 50,000 visitors each year. Attendees can see work from 250 of the world's leading galleries. Given the show's location and climate there is a variety of events to see in addition to the main exhibition hall.

During the show performances and ambitious artworks can be seen at area beaches, Collins Park and at SoundScape Park. Along with the nightlife and attractions the city truly becomes part of the event. In the days leading up to the opening there are lectures, receptions, films and exhibits held at area galleries, bars and lounges culminating with the opening on the 5th.

The show is held at the Miami Beach Convention Center (MBCC). It is located a short walk from South Beach's many hotels and shoreline. The space houses the Galleries, Nova, Positions, Kabinett, and Magazines sectors. The site also holds our discussion series, Conversations and Salon. Public artworks are at nearby Collins Park, while Film is presented both at the convention center and in SoundScape Park.

# Selection Process

The selection process for each show begins nine months before the shows open. Each year over 2,000 galleries submit applications. Individual artists can only have work submitted through galleries. Each gallery begins by deciding which sector they wish to participate in. A gallery can submit multiple applications for the various sectors in the show. The sections for each city include Galleries, Edition, Film and Magazines. Every show has sectors unique to each city. For Miami Beach these include Nova, Positions, Kabinett and Public.

Each show has a selection committee that reviews the applications. Once the applications are received the selection committee begins its deliberations. By relying on established criteria that is the same from year to year ensures that the quality of work will be consistent and of the highest quality. During the week long process each gallery is reviewed regardless of whether or not they have participated in previous shows.

Each committee is comprised of gallerists who serve for several years. For Miami Beach they are Chantal Crousel, Peter Freeman, Martin Klosterfelde, José Kuri, Friedrich Petzel, Jeff Poe, and Mary Sabbatino.

Sector experts:

Nova and Positions

Márcio Botner, Joanna Kamm, Andrew Kreps.

Florida galleries:

Fredric Snitzeri.

# Artists

Lygia Clark

Quebra da Moldura Composição Nº 4, 1944 - 1954
